

CHARADES

A STEP-BY-STEP GUIDE ON HOW TO PLAY CHARADES OVER FACETIME.

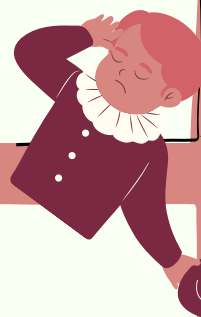

OVERVIEW

Charades is classic game, beloved by generations for its simplicity and ease. It requires almost no supplies, and can be played by almost anyone. It does require quick thinking and a little creativity. It's easily played over FaceTime because no items or materials are required in order to play it. And best of all, there's no mess or clean-up.

HOW TO PLAY

First, use your imagination to choose a person, place, or thing. You can easily choose basic things if you're playing with a child (alligator, brushing your teeth, banana, etc.) or you can make things more complicated if you're playing with another adult.
